***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

Claims 1, 12, 29 and 30 are allowable subject matter because the combination features of the direction-of-view-determining module for determining the current direction of view of at least one eye of the user with respect to the display and the direction-of-view-evaluation module determining a direction of view of a pupil by detecting a position of the pupil using light reflected off of the pupil which is detected by an eye tracker at the user terminal, this current viewing direction information then is transmitted to a media center for further evaluation to determine the viewed spots of the video objects and/or picture objects and determining picture objects being located at these spots and viewed by the user of the respective communication terminal to determine a user interest make the claims allowable over the prior art of records.

Claims 2, 4-11 and 25-26 dependent on Claim 1, Claims 13, 15-22 and 27-28 dependent on Claim 12 are also allowable.

***Conclusion***
